9 X 2-3/4	GCDS234T	2M	COMPOSITE SCREW, GRABBERGARD TAN

Deck built by CFC Fences & Decks (Provo, Utah)

Designed not to mushroom

Grabber's patent pending composite deck screws are much less likely to mushroom composite deck material than competing brands. This is because Grabber's composite deck screws pull material out as they drill in instead of compacting the material into the hole causing material to swell and mushroom.

BARRACUDA®

Collated Composite Deck Screws

The quickest way to fasten composite decks is with an automated fastening system. That's why Grabber now collates its new composite deck screws. You get more done in less time.

Barracuda collated composite screws are available in brown, gray, red and tan. Custom colors are also available. Ask your Grabber dealer for details.

SuperDrive 75 is the perfect automated fastening system for composite deck screws. Its 20" extended handle gives you the control and comfort you need to build the perfect deck in no time.

Grabber's Barracuda™ composite screws feature GrabberGard® advanced corrosion protection. GrabberGard® is ACQ compliant and is 1000 hour salt spray / 15 cycles Kesternich testing certified.
